

Rohde & Schwarz EMI Test Receiver Trade-In Program

Do you have an older test receiver (ESIB, ESCI, ESU, etc.) laying around? Did you know today's latest EMI test receivers from Rohde & Schwarz offer:

- ▶ Full CISPR 16-1-1 compliance
- ▶ Configurable pre-selectors and notch filters increase dynamic range
- ▶ Time domain scan (FFT) saves valuable time
- ▶ Real-time spectrum analysis for analyzing intermittent signals (EMI debugging)
- ▶ APD for testing to CISPR 11 – even on many parallel channels (ESW receivers)

Talk to your local R&S salesperson today to see if you are eligible* to trade in an older test receiver (including 3rd party) to upgrade to one of the latest test receivers from R&S.

Rohde & Schwarz ESR Test Receiver

Rohde & Schwarz ESW Test Receiver

EMI Test Receiver Name	Description	Order No.
