

# EMI PRE-COMPLIANCE SET

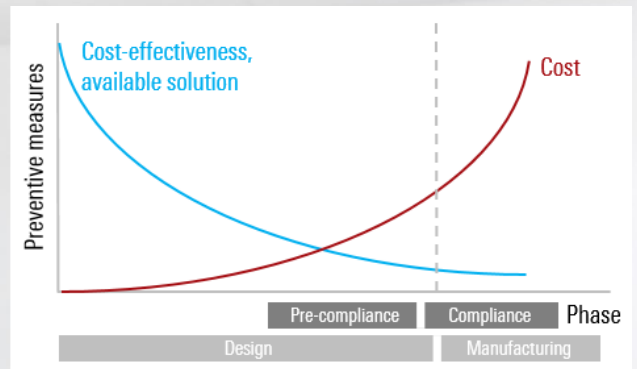

Conducted Emissions Testing and Debugging Packages

### Manage cost through early testing

Pre-compliance and debugging tests, when started early, can greatly reduce the cost of EMI management.

To support your EMI pre-compliance testing, Rohde & Schwarz has come up with 3 setups.

**Talk to our experts today to find out more!**

**SAVE 20%**  
on all sets

### Entry Level set

- ▶ Affordable
- ▶ Using compliance measurement methodology
- ▶ Report generation capability

### Products:

Spectrum Analyzer with options  
R&S®FPC1000 + K43 + B22 + Z1

EMC H-Field Probe Set,  
R&S®HZ-17

LISN, 9 kHz to 30 MHz (CISPR16)  
HM6050-2D

ELEKTRA EMI Software,  
R&S®ELEMI-E, R&S®EMCPC

### Essential set

- ▶ Simplified one-box setup
- ▶ Faster measurements
- ▶ Enhanced accuracy for EMI debugging and validation

### Products:

Spectrum Analyzer with options  
R&S®FPL1003 + K54 + B22

EMC H-Field Probe Set,  
R&S®HZ-17

LISN, 9 kHz to 30 MHz (CISPR16)  
HM6050-2D<sup>1)</sup>

### Essential Plus set

- ▶ **Essential set** with report generation capability
- ▶ Full EMI Scan methodology

### Products:

Spectrum Analyzer with options  
R&S®FPL1003 + K54 + B22

EMC H-Field Probe Set,  
R&S®HZ-17

LISN, 9 kHz to 30 MHz (CISPR16)  
HM6050-2D<sup>1)</sup>

ELEKTRA EMI Software,  
R&S®ELEMI-E, R&S®EMCPC

<sup>1)</sup>Replace with ENV216 + R&S®FPL-B5 for full automatic control
